

Sebastian Albrecht

CURRICULUM VITAE

Senior IT Project Manager

AI & Cloud / Security Research

PROFILE

15+ years of experience in automotive, financial services and enterprise IT. Active in authorised security research and responsible disclosure since 2026. I connect business requirements, technical dependencies, risk and user adoption with structured delivery.

PROFESSIONAL EXPERIENCE

09/2022 - present

Independent IT Project Manager

Kirchlengern · remote / hybrid

Independent consulting and R&D: target designs, roadmaps, backlogs and operating models for AI and cloud initiatives. Authorised security research, responsible disclosure and open-source contributions since 2026.

03/2021 - 08/2022

IT Project Manager DevOps Automotive

BMW Group · Salzburg, Austria

Managed software delivery, test campaigns, rollouts and operational work for automotive applications. Turned requirements into user stories and work packages; coordinated business teams, suppliers, SLAs, quality and handovers.

06/2020 - 02/2021

Professional transition

Salzburg, Austria

Refocused on IT project management before joining BMW.

05/2018 - 05/2020

Senior IT Project Manager CarFin

Porsche Bank AG · Salzburg, Austria

Led the introduction of the CarFin core banking platform: requirements engineering, agile delivery, solution documentation, test planning, UAT and rollout preparation. Coordinated local business teams, international stakeholders and implementation partners.
